

Happy New Year!

Things were busy for the volunteers during the fall of 2023. Heritage School welcomed nearly 400 students from 22 total classes, primarily in the month of October. Students who visited came from area parochial, private, and public schools.

A few repairs were made to the building to keep it in tip top shape. This included tuck pointing the exterior brick, glazing the windows to seal them, repairing and painting door/window frames, sanding and cleaning desks and replacing and painting the cellar doors. We appreciate the hard work of those who completed these important projects.

Thank you for your continued support of Heritage School. We are looking forward to spring and the visits from Sheboygan Area School District fourth grade classes.

With Appreciation,  
Friends of Heritage School Council
